

ENHANCED SUMMARY CARE RECORDS

Most people in England have a **Basic Summary Care Record** which contains **key health information** about you.

However additional information can be added that could be really important to your treatment.

This is called an **Enhanced Summary Care Record** and has additional benefits.

SUMMARY
CARE
RECORDS

- Provides full health information if you need to call an ambulance, contact 111, the out of hours service or go to hospital anywhere in England, .
- You do not have to remember all your previous history
- It is quick, secure and safe for health staff to access your Enhanced Summary Care Record.
